STUDENT'S OPINIONS FROM THE C5 SHORT-TERM EXCHANGE of groups of students LTTA

Tetovo, N.Macedonia 9th – 13th MARCH 2020

The whole trip to Macedonia was really amazing. First when I got there, I was scared and stressed because of the age gap between me and my host but after just an hour I knew that I was going to love every single minute spent there. People in Tetovo are very friendly and everyone knows each other so when I came there, wherever I went, I met a new friend. Life goes slowly and everyone is calm there. Every day spent with Macedonian friends was awesome and I never got bored. The trips to places like Matka Canyon or Skopje were also wonderful, because of the beautiful sight and the fact that I have been there with my friends. I really like the school in Tetovo and the activities that we have done there. The food was great especially traditional food.

I really enjoyed the week I spent in Macedonia. It boosted my self-confidence and made me open more to new relationships. I love the people there and the way how they live so I'm definitely going to visit Tetovo as soon as I can.

Karol

I think North Macedonia is a beautiful country, I loved it. They have a lot of monuments and landscapes there. Nature delight with its wildness. There is also a beautiful Ohrid Lake, it has crystal clear water. People were very open to me, kind and polite. The food was delicious. The only downside is the garbage lying on the streets and the lack of segregation containers.
